

Spring Staking System Terms and Conditions

Please read these Terms of Use (the “Terms” or “Terms of Use”) carefully before using the Spring Staking System (“System”). Collectively, the System, including any new features and applications, its integrations with our other products (Trusted Lending Circles, Spring, CryptoUnlocked, and any other products of Finclusion Labs Inc, DBA WeTrust) are referred to as the “Services”. By using or otherwise accessing the System, or clicking to accept or agree to these Terms where that option is made available, you (1) agree that you have read and understand these Terms (2) accept and agree to these Terms and (3) any additional terms, rules and conditions of participation issued from time-to-time. If you do not agree to the Terms, then you may not access or use the Content, Service, or System.

We reserve the right, at our sole discretion, to change or modify portions of these Terms of Service at any time. When we do this, we will post the revised Terms of Service on this page and will indicate the date of such revision.

Please read these Terms. Your use of the System represents your agreement to these Terms. IF YOU DO NOT AGREE TO BE BOUND BY THE TERMS OF USE, YOU MAY NOT ACCESS OR USE THIS WETRUST SITE OR THE SERVICES.

THESE TERMS CONTAIN AN AGREEMENT TO ARBITRATE ALL CLAIMS AND CONTAINS IMPORTANT DISCLAIMERS OF WARRANTIES AND LIMITATIONS ON LIABILITY. Please see Section 15 for the arbitration provisions. Please read the entire Terms, but please read all capitalized provisions carefully as they contain important disclaimers of warranties and limitations on liability.

1. **Acceptance of Terms.** The System is made available by us in accordance with these Terms. We reserve the right to make changes to these Terms in our sole discretion. We may provide the changes to you by any reasonable means, including by posting the updated Terms on our website or notifying you of the changes. You can determine when these Terms were last changed by referring to the “Last Updated” legend at the top of these Terms. Your access to or use of the System after such posting or other notice of changes represents your agreement to the changes. Any change to these Terms will not apply to any dispute between you and us that arose prior to the date of such posting or notice.

Some of the features of the System may be subject to additional terms and conditions, which are posted or made available separately from these Terms (“Additional Terms”). Your use of the System may also be subject to additional policies, guidelines or rules we also post or make available. Such Additional Terms policies, guidelines and rules are incorporated and form a part of these Terms. If there is a conflict between these Terms and the Additional Terms, the Additional Terms will control unless stated otherwise.

We reserve the right at any time to modify, suspend or discontinue all or any part of the System, with or without notice. Neither we nor any of our affiliates will be liable to you or any third party for any modification, suspension or discontinuance of the System.

You may not use the System and you may not accept these Terms if you are not of legal age to form a binding contract with us, which is 18 years of age in most states.

2. **Service Description.** Trust Token (“TRST”) is an ERC-20 utility token used in Trusted Lending Circles, Spring Directory, and other WeTrust products. Spring is a decentralized blockchain based, fundraising platform. When you use the System, you also agree to the Terms and Conditions of the respective Service that you are using. Anyone who is holding TRST token and is using it for the System is a user (“User”).

Staking in Trusted Lending Circles: If you are using TRST for staking in the Trusted Lending Circles, refer to the Terms of Service for the Trusted Lending Circles. The following Terms apply only to Staking on Spring at staking.wetrust.io.

Staking on Spring: WeTrust Spring is a blockchain-based, decentralized, contributor centric ecosystem that allows contributor (“Contributors”) who own virtual currencies to learn more about certain organizations (“Organizations”) that accept contributions in cryptocurrency and make direct contributions of supported virtual currencies (“Virtual Currencies”) to such Organizations in their discretion.

TRST is used in Spring to curate the Spring directory and add new Organizations. The System allows TRST holders to decide which causes are featured and which organizations can be added to the system. Any User may place a stake of TRST token towards an organization. The user selects from a list of organizations those that they wish to support by staking their TRST. One can support organizations already listed on Spring, or use TRST to nominate organizations that are not yet in the Spring directory. This support signals to the organization its value within the cryptocurrency community, and motivates them to learn about and onboard into our platform.

Each stake will also include a lock-up duration. The duration of the lock-up and the amount staked influence the ranking and curation in the Spring directory. Increasing the amount staked and/or the lock-up duration will influence and increase the ranking in the Spring directory (see quality score below). During the lock-up duration, Users may not withdraw their stake, make changes to their stake (ie. change the organization), or decrease their stake amount or duration. Once the lock-up period has elapsed, the User will be able to unstake and withdraw your tokens by utilizing the original ethereum address used to execute the staking.

By staking TRST on Spring System to a cause, you are signalling your appreciation for that particular organization, thereby increasing their visibility on Spring. All organizations on the

platform must have a minimum amount of TRST staked to their name in order to activate their profile on the Platform. Activation allows for editing of their profile, making community updates, beyond the generic information found online. If an organization has an invalid receiving ETH address or is in violation of the Terms, the organization may not be shown irrespective to the amount of TRST staked.

While the System is intended to serve as a convenient way to participate in Spring, the System is an experimental prototype and the use of it involves a high degree of risk. There are numerous ways the Staking Contracts, the Open Source Software and Service could fail in an unexpected way, resulting in the total and absolute loss of all of your funds, including TRST and other cryptocurrency, tokens or digital assets.

3. **Privacy Policy.** All information collected on the System is subject to the Privacy Policy. By using the System and any associated Services, you consent to all actions taken with respect to your information in compliance with the Privacy Policy. The Privacy Policy can be found [here](#).
4. **Accuracy of Information Provided in the System.** All information and content provided by Finclusion Labs related to the Services is for informational purposes only, and Finclusion Labs does not guarantee the accuracy, completeness, timeliness, or reliability of any such information or content. No content is intended to provide financial, legal, tax or other professional advice. Before making any decisions regarding any Campaigns, Organizations, Contributions, Contributors or any information or content related to the Services, you should consult your financial, legal, tax or other professional advisor as appropriate. You acknowledge that all information and content accessed by you using the Services is at your own risk.
5. **All Staking is done at your own risk.** You acknowledge and understand that Cryptography is a progressing field. Advances in code cracking or technical advances such as the development of quantum computers may present risks to cryptocurrencies and Service or Content, which could result in the theft or loss of your cryptographic tokens or property. To the extent possible, it is intended to update the protocol underlying the Service to account for any advances in cryptography and to incorporate additional security measures, but does not guarantee or otherwise represent full security of the system. We are not liable for any contributions intended or accidental to any addresses, smart contracts, or campaigns on the System. We are not liable for any losses you may experience. We have no liability for any losses you experience related to your participation on the System. By using the Service or accessing Content, you acknowledge these inherent risks.

YOU UNDERSTAND THAT BLOCKCHAIN TECHNOLOGY, THE ETHEREUM PROTOCOL, ETHER, METAMASK AND OTHER ETHEREUM WALLETS, AND DECENTRALIZED PLATFORMS, ON WHICH THE FUNCTIONALITY OF THE SYSTEM DEPEND UPON ARE NEW AND UNTESTED TECHNOLOGIES OUTSIDE OF WETRUST'S CONTROL AND ADVERSE CHANGES IN MARKET FORCES OR TECHNOLOGY, BROADLY CONSTRUED, WILL EXCUSE WETRUST'S PERFORMANCE UNDER THIS AGREEMENT. IN PARTICULAR,

AND IN ADDITION TO THE TERMS OF THIS AGREEMENT, YOU ASSUME ALL RISK OF LOSS RELATED TO THE SERVICE.

Linked Wallet Required. You must connect your MetaMask Wallet in order to use the System. WeTrust is not a provider of wallets and you must obtain a wallet from a third party. WeTrust cannot guarantee the functionality, uptime, safety, or security of your Wallet. You must comply with the terms and conditions of your third-party Wallet provider. Non-compliance with your Wallet's terms and conditions is a violation of this Agreement.

Wallet Transactions. You authorize WeTrust to follow instructions you provide in order to facilitate transactions between your Wallet and the System, either directly by WeTrust or indirectly via a third party service provider. You also authorize WeTrust to request, initiate, and facilitate the transfer of any other amounts between your Wallet and the System, if any. You understand and agree that you will not be able to claim any cryptocurrencies that are in the lock-up period.

You are responsible for safeguarding your Wallet login credentials and private keys. Any third party that gains access to your login credentials or private keys to any third party wallet application you are using (e.g., Metamask.io) may be able to misappropriate TRST or other virtual currency held in your Wallet or sent to the campaign Smart Contract by you. **YOU MUST NOTIFY US IMMEDIATELY IF THE LOGIN CREDENTIALS TO YOUR ACCOUNT OR YOUR WALLET ARE COMPROMISED OR IF YOU SUSPECT THERE IS ANY UNAUTHORIZED ACCESS TO YOUR ACCOUNT OR YOUR WALLET.** You must also immediately notify the provider of your Wallet if your login credentials or private keys are compromised, or if there is any unauthorized access to your Wallet. If we learn of or suspect unauthorized use of your Account, we may restrict the use of your Account to the extent we reasonably deem necessary to protect the System but we are not required to do so. WeTrust does not guarantee the security of your Wallet and is unable to not control or protect the security of your Wallet. **YOU UNDERSTAND AND AGREE THAT WETRUST IS NOT RESPONSIBLE FOR ANY LOSSES RESULTING FROM UNAUTHORIZED ACCESS TO YOUR WALLET, YOUR ACCOUNT, THE SMART CONTRACT, OR THE ACCOUNT OR WALLET OF A FRIEND.**

You understand that Ethereum, TRST and other blockchain technologies and associated currencies or tokens, are highly volatile due to many factors including but not limited to adoption, speculation, technology and security risks. You also acknowledge that the cost of transacting on such technologies is variable and may increase at any time causing impact to any activities taking place on the Ethereum blockchain. You acknowledge these risks and represent that Finclusion Labs or any related entity or person cannot be held liable for such fluctuations or increased costs. You also acknowledge that the value of your cryptocurrency may, and likely will, change during the lock-up duration. Finclusion Labs is not responsible for any changes in value of cryptocurrency during the lock-up duration. Due to the nature of smart contracts, **WE CANNOT UNSTAKE TRST FOR YOU DURING THE LOCK-UP DURATION.**

Careful due diligence should be undertaken as to the amount of TRST or other

tokens/cryptocurrencies you stake and using the System with full understanding that any staking of these tokens/cryptocurrencies could be subject to total loss. You assume any and all risk associated with your use of the System.

Although Finclusion Labs has not sought to list TRST on cryptocurrency exchanges, it is aware that TRST has been listed on certain exchanges and in the future it may be delisted on these exchanges and/or listed on others. Finclusion Labs disavows any obligation with respect to the listing of TRST on exchanges and it disavows any responsibility with respect to the value or trading of TRST on exchanges. Persons trading TRST or otherwise engaged in activities involving TRST on exchanges assume any and all risk, including that of total loss, associated with such activities.

6. **Risk of regulatory action in one or more jurisdictions.** The Staking System and Spring Platform could be impacted by one or more regulatory inquiries or regulatory action, which could impede or limit the ability of Finclusion Labs to continue to develop, or which could impede or limit your ability to access or use the Service or Ethereum blockchain, including access to your funds, including your TRST tokens.
7. **Mobile device application.** You are responsible for any requirements of our mobile applications, including any updates and fees. You are also responsible for compliance with the terms of your agreement with your mobile device and telecommunications providers. We may provide you with alerts related to your account. YOU MAKE ALL FINAL DECISIONS RELATING TO YOUR STAKING AT YOUR OWN DISCRETION AND RISK. YOU ASSUME ALL RISK FOR ANY LOSS, DAMAGE AND LIABILITY THAT MAY RESULT FROM YOUR DECISIONS.

YOU ACKNOWLEDGE THAT WE ARE NOT SOLICITING FOR ANY ORGANIZATION, OR PLANNING, MANAGING, CONSULTING OR PREPARING SOLICITATION MATERIALS FOR ANY ORGANIZATION.

We may assign, transfer or sublicense any or all of our rights or obligations under these Terms without restriction. No waiver by either party of any breach or default of these Terms will be deemed to be a waiver of any preceding or subsequent breach or default. Any heading, caption or section title of these Terms is inserted only as a matter of convenience, and in no way defines or explains any section or provision. These Terms, together with any Additional Terms and all policies, guidelines and rules incorporated by reference, represent the entire agreement between you and us relating to the subject matter of these Terms and supersedes any and all prior or contemporaneous written or oral agreements or understandings between you and us relating to such subject matter. Notices to you may be made via posting to the System, by e-mail, or by regular mail, in our discretion.
